CREMATORY LITIGATION

MDL DOCKET NO. 1467

STATUS REPORT REGARDING DISCOVERY

Class Counsel submits this status report to apprise the Court of the status of discovery and of Class Counsel's efforts to comply with this Court's Orders.

On September 25, 2003, the deposition of Mark Grissom was taken. Relevant portions of his deposition will be submitted in response to the W.L. Wilson & Sons motion for summary judgment as soon as the transcript is received. The deposition of Walter Spearman is scheduled for Monday, September 29, 2003. Relevant portions of his deposition, as well, will be submitted in response to the pending motion for summary judgment as soon as the deposition has been transcribed. Other important depositions, such as that of Laura Fulginetti, who assisted in the G.B.I. recovery efforts, are being scheduled in the coming weeks. A large number of additional depositions of class members have been scheduled and taken by the defendants and will continue by agreement into October.

On Saturday, September 27, 2003, what were represented to be the final class member files needed for notice were delivered to Class Counsel by the defendants. The notice database should be completed by Monday, September 29, 2003 and will be served on the defendants.

On September 24, 2003, pursuant to this Court's Order, Class Counsel served extensive amended and supplemental discovery responses on the defendants. The responses included signed "Class Member Data Sheets" for more than 190 decedents. (See Exhibit A, blank form Class Member Data Sheet). Additional Class Member Data Sheets will be prepared and produced as that information becomes available. The responses also contained explicit citations to documents by bates stamp numbers and to deposition testimony by page and line. The responses listed the common proof and provided a separate chart for each of the thirty-four individual funeral homes, listing the responsive documents and deposition testimony, and explaining the relevance of each cited item. An example of the individual funeral homes charts is attached hereto as Exhibit B for the Court's reference. (Exhibit B).

Of note, while each funeral home was supplied an individualized response with reference to the documents each funeral home produced, there are a small number of form documents that were used by and apply to each funeral home. These key documents will govern the jury's ultimate

determinations about the mixed fact and law questions of the nature of the funeral home's relationships with Tri-State and of agency.

For instance, nearly every funeral home used a "Cremation Authorization" form that was supplied by Tri-State. (Exhibit C). This form expressly authorized the funeral home – not Tri-State – to make arrangements for cremation and listed the funeral home's specific requirements for manner in which the work was to be performed. Specifically, the form contract between each funeral home and the class members states that: "The cremation authorized herein shall be performed in accordance with all governing laws, the rules, regulations and policies of the Crematory and Funeral Home and the following conditions:..." The form thus establishes that Tri-State was required to adhere to the funeral home's rules, policies and regulations regarding the manner in which the work was to be performed. The form agreement also establishes that statutory provisions governed the manner in which the work was to be performed and the duties undertaken by the funeral home were, therefore, non-delegable.

Prior to use of the form Cremation Authorization that is attached hereto as Exhibit C, the funeral home defendants used a less detailed Authorization, which stated that, "I/we authorize _____ Funeral Home to cremate the remains of _____." (Exhibit D). While less

detailed, this Authorization, as well, establishes that the funeral homes were the entities authorized to by the class members to cremate their loved ones' remains, and that the class member's contracts expressly provided for the funeral home to perform the cremation. The funeral homes' duties were therefore non-delegable, making Tri-State their agent. Some versions of the form expressly authorized the funeral home "and/or its agents" to perform the cremations. (Exhibit E). Every funeral home, except two of the thirty-four, used an identical or substantially similar version of one of these Cremation Authorization forms.

Likewise, the Tennessee funeral homes executed a State of Tennessee, Permit for Final Disposition of Human Remains, in which the funeral home signed the following: "I agree to abide by all laws and rules of the Tennessee Department of Health and all other laws pertaining to the preparation, container, transportation, burial and/or cremation of same." (Exhibit F). These permits reflect that the state permit for disposition under regulations and applicable laws was issued to funeral home, not Tri-State, making disposition duties undertaken non-delegable. Moreover, the permits establish that statutory provisions governed the manner in which the work was to be performed and the duties undertaken by the funeral home were, therefore, non-delegable.

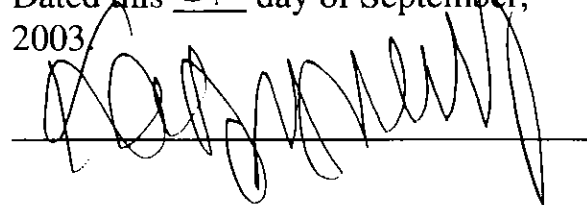

The parties have worked together efficiently and effectively to bring the discovery phase of this case to a close. As notice goes out and more information becomes available to Class Counsel, discovery will be supplemented.

Respectfully submitted,

1. The remains of the Deceased will not be accepted for cremation unless received by the Crematory in a combustible, leak resistant, rigid cremation container. The crematory is authorized to remove and dispose of all handles, ornaments, and any other non-combustible items attached to the cremation container prior to cremation. In the event the remains of the Deceased are received by the Crematory in a casket or other container constructed of metal, fiberglass, or other noncombustible materials, I/We authorize the remains of the Deceased to be removed prior to cremation and placed in a combustible cremation container. I/We further authorize the Funeral home or Crematory to make disposition of any such noncombustible casket in any lawful manner it deems appropriate.

8. Unless an urn or container suitable for shipment is purchased, the Crematory will place the cremated remains of the Deceased in a container which is not designed for any type of shipment.
9. In the event the urn or container is insufficient to accommodate all of the cremated remains of the Deceased, any excess cremated remains will be placed in a secondary container and returned to the Funeral Home, together with the primary urn or container.
10. I/We understand and acknowledge, that even with the exercise of reasonable care and the use of the Crematory's best efforts, it is not possible to recover all particles of the cremated remains of the Deceased, and that some particles may inadvertently become commingled with particles of other cremated remains remaining in the cremation chamber and/or other devices utilized to process the cremated remains. I/We hereby authorize the Crematory to dispose of any such residual particles in any lawful manner it deems appropriate.

I/We agree that in the event the cremated remains of the Deceased remain unclaimed, for a period of 120 days after the date such written notification is mailed, the Funeral Home is authorized and directed to dispose of the unclaimed cremated remains of the Deceased in any lawful manner it may deem appropriate.
13. I/We agree to indemnify, release and hold the Crematory, Funeral Home, their affiliated, agents, employees and assigns, harmless from any and all loss, damages, liability or causes of action (including attorney's fees and expenses of litigation) in connection with the cremation and disposition of the cremated remains of the Deceased, as authorized herein, or my/our failure to correctly identify the remains of the Deceased, disclose the presence of any implanted mechanical or radioactive devices, or take possession of, or make permanent arrangements for, the disposition of such remains.
14. Except as set forth in this Authorization, no warranties, expressed or implied, are made by the Funeral Home, Crematory or any of their respective affiliates, agents or employees.
